## A message from our Director of Career Innovation

Dear Nexford graduates,

You did it! All the time you put into investing in yourself has paid off and graduation is here. As you prepare to close this chapter and spread your wings – remember a few things. First, stay in touch! Like we always write, your success is ours and we want to continue to cheer on your achievements even after graduation. Second, continue to invest in your community and network – both for your own growth and for that of those around you.

Reach out to those more senior than you in your field to learn from their experience and also reach out a hand to those who are still growing in your industry to help them along the way.

Finally, celebrate! From this achievement to your next success – make time to reflect on your efforts and appreciate all that you have accomplished. We can't wait to see the great things you'll continue to do!

Warmly,

**Dr. Jennifer Bangoura**  
Director of Career Innovation
